

# 8000 Watt Pure Sine Wave Inverter

Has a 32000 watt surge capacity!

Split Phase — this means you can have 110v and 220v at the same time!

**Price \$585 w/free shipping**

Here it is a 8000w continuous with a 32000w surge capacity for starting heavy loads. Has a 1-year warranty for residential use. Models are available in either 12v DC input or 24v DC input. Output is 110v AC and 220v AC at the same time! Note: you can ONLY obtain 4000w 120v and 4000w 220v concurrently. Also has a battery charging function at a 120-amp rate. (Available with 220v output only.)

## Technical Specifications

Continuous Power Output	8000w	Max. Power Output	32000w
DC Input Voltage	12 or 24v DC	AC Output Voltage	110v and 220v
Regulation	+,- 5%	Efficiency	90-92%
Output Wave Form	Pure Sine	Low Voltage Shutdown	10v or 19v
High Voltage Shutdown	15v or 28v	Weight	44lb
Made in Taiwan		No Load Current Draw	.38-.48 amps
